

All units are constructed of stainless steel double wall panels with removable liners, burners and top grates. They are engineered with advanced features such as the "H" type cast iron burners for even heating of broiler surface.

The char-rock design distributes heat evenly and provides the high temperatures required to sear in juices for tender meat, fish and poultry.

Top grates may be adjusted to flat or sloped positions. The slanted broiler surface offers different cooking temperatures for broiling various meats at the same time, and allows fat to flow into the front grease trough minimizing flare up.

STANDARD FEATURES

- Stainless steel front valve cover and sides.
- Double side panels for better insulation.
- 35,000 BTU/hr "H" type cast iron burner. One standing pilot per burner for instant ignition.
- Burner cover provides even heat distribution and protect burners from clogging.
- Manual control for each burner.
- 5" x 21" top grates lift off sections made of heavy duty cast iron and can be placed in flat or sloped positions.
- Lower grates are heavy duty cast iron 8" x 15" waffle style which support char-rock and promote proper air-flow and conducts even heat.
- Porous pumice char-rock is self cleaning.
- High temperature broiling with minimum gas inputs.
- Full width removable crumb pan.
- 4"appliance legs are optional.
- Available in 12", 24", 36", 48" and 60" wide models.
- One year parts and labor warranty.
- U.L. gas and U.L. sanitation certified design.
